4TH WOOD FIBRE POLYMER COMPOSITES INTERNATIONAL SYMPOSIUM

**Natural Fibre to Building
and Furniture products:
Innovation and Technologies**

March 30-31, 2009
Cité Mondiale
Bordeaux - France

Conferences and exhibition

Pre registration form and call for papers - Deadline: September 26th, 2008

FCBA was born of the merger in 2007 of the CTBA, the Wood and Furniture Technical Centre, and the AFOCEL, the Association for Forests and Cellulose.

4TH WOOD FIBRE POLYMER COMPOSITES INTERNATIONAL SYMPOSIUM

Natural Fibre to Building and Furniture products: Innovation and Technologies

FCBA announces its Fourth International Symposium on Wood Fibre Polymer Composites.

YOUR BENEFITS

Manufacturers, users, international experts or scientists, are welcome to participate in round-table discussions, presentations and show-room displays on the recent progress in this innovative industry. Access to an up to date information on market acceptance, recent developments on products and innovative process and long-term performance and standardization will be provided. Find attractive opportunities for your future business.

The 2009 edition will more especially focus on a true alternative for petrochemicals-based end use products by renewable resources: "Natural Fibre to Building and Furniture products: Innovation and Technologies".

We are inviting papers and commercial exhibits for this International Symposium in the following areas:

CONFERENCES

KEYNOTE PAPERS

Session 1	Advances on market acceptance, business opportunities and standardization outlook
Session 2	Innovation for building and furniture
Session 2A	Innovation on raw materials and formulations
Session 2B	Recent progress on products and technologies
Session 2C	Wood Polymer Composites in exceptional Building and Furniture applications
Session 3	Research and development
Session 4	Performance assessment of products and testing
Session 5	Environmental issues

Abstracts of presentations should be submitted no later than September 26, 2008.

WHO SHOULD ATTEND

- Producers of wood raw materials and natural fibers, plastics, additives...
- Producers of WPC (building construction, furniture, houses equipment, automotive and other sectors),
- Suppliers of wood, natural fibres...
- Suppliers of plastics and additives,
- Suppliers of bioplastics and biopolymers,
- Suppliers of process equipment,
- Engineers and consultants,
- Architects and owners,
- End-users or consumers.

TECHNICAL EXHIBITION

For the whole duration of the Symposium, you will be able to present your products, technologies and services thanks to the exhibition space : **so, take the opportunity by registering now.**
